EPS Multiport Print Servers

EPS Multiport Print Servers

The EPS2–100 and EPS4–100 connect parallel and serial peripherals to Ethernet networks. The units have multiple DB25 Centronics/Bitronics-compatible parallel ports and two RJ45 serial ports that support speeds up to 230Kbps. A 10/100 RJ45 network port supports either 10Mbps or 100Mbps Ethernet applications.

● Support for IPX, TCP/IP, AppleTalk, NetBIOS/NetBEUI and LAT protocols (LAT license required)

● 10/100 RJ45 network port

● 2 (EPS2-100) or 4 (EPS4-100) Centronics/Bitronics-compatible parallel ports

● 2 RJ45 serial ports with full modem controls

● Easy installation and configuration

● High-performance serial speeds of up to 230Kbps

● Telnet and Reverse Telnet (rtel) support

● Management via telnet, SNMP, DHCP, and EZWebCon, Lantronix's own web-based management software

● Flash ROM for easy software upgrades

● Internal switching power supply (95-250VAC)
